*This has been a dream of ours for many years, to leave a legacy of knowledge.  
We aim to leave behind knowledge that will benefit people and in-shaa-Allah be heavy on our scales too.  
We believe education is the key to changing the world. Nothing else will ever have the same impact or difference - nor will it ever have a lasting effect. A scholar may pass on knowledge to a student and it continues like a ripple effect throughout generations.  
We believe education should be for everyone, from any background and any walk of life, and be accessible at any time. We aim to educate from the very foundation and allow our followers to build their knowledge up step by step, at their own pace. We hope we can truly change the world, with this small contribution towards an everlasting knowledge base.  
We thank you in advance for your kind support.*
